

## Maximize Your IT Potential

Complementing our tools (templates) offering, our 'coaching' services are oriented to support your business and IT processes and activities execution related to: 1) global governance; 2) strategic planning; 3) justification, planning, execution and project follow up; 4) portfolio management; 5) change management (technical environment); and 6) disaster recovery to contribute to your business and IT objectives completion

### THE INTEGRATION

of our tools (templates) ensure all processes and activities realisation over each project execution in order to deliver solutions better meeting expressed business and IT needs

### OUR TOOLS (TEMPLATES)

- **Gouvernance & Strategic Planning (3)**
- **Portfolio Management (2)**
- **Project Management (9)**
- **Disaster Recovery (1)**
- **IT Change Management (1)**
- **Integration Architecture (1)**

### FOCUS

is on usability of our tools (templates) and not on services invoicing

### OUR ADVANTAGE

The majority of integrated tools (templates) delivered by PIGA-TI are based on the assumption that each one can address a new customer' business and IT general context and needs. If required, their adaptation will be possible as well as their translation in English and Spanish based on services agreements concluded
